FIRE SAFETY

Fire Basics

Fire required 3 elements: heat, fuel, and oxygen (fire traingle). Removing any one extiguishes a fire.

Monthly and Annual checks

A qualified person within the organization must inspect fire extinguishers monthly, and extinguishers must be serviced by an approved technitian annually.

Use an extinguisher if...

The fire is small, contained, and producing mimimal smoke.

PASS

Pull the pin
Aim at the base
Squeeze the handle
Sweep side to side

Preventative Action

Identify hazards
Store flammable materials properly
Create a written response plan
Train all staff
